AQUA LIZED TRAVEL ADVENTURES

PALAU

Regal Travel Management Company

07-21 MAR 2027

- Trip highlights:
- Blue Corner — Palau's signature dive: a current-swept reef plateau and wall where divers can hook in and watch grey reef and whitetip sharks, barracuda, trevally, turtles, and Napoleon wrasse. It is best suited to experienced divers.
- German Channel mantas — A historic channel that funnels plankton-rich water past a cleaning station, attracting reef manta rays that glide over colorful coral. Manta sightings often peak from December to March.
- Ulong Channel drift dive — A dramatic drift through a sandy-bottomed channel lined with coral, groupers, reef sharks, and hawksbill turtles; its strong currents make drift-diving experience valuable.
- Sharks and big schools — Sites including Blue Corner, Ulong Channel, Siaes Corner, Peleliu Express, and Shark City can produce encounters with dozens of grey reef, blacktip, and whitetip sharks, alongside jacks, snappers, and barracuda.
- Blue Holes and Siaes Tunnel — Blue Holes offers a vast, cave-like underwater opening with light shafts and reef life, while Siaes Tunnel provides a deeper, more atmospheric cavern dive below 30 meters.
- WWII wrecks and Jellyfish Lake — Palau combines reef diving with coral-covered Japanese wartime wrecks such as the Iro, Chuyo Maru, and Jake Seaplane, plus the famous Jellyfish Lake, where millions of mostly harmless golden jellyfish can be seen.

Expert Guidance: Dive with reputable local operators and benefit from the expertise of Aqualized Travel Adventures and the support of Regal Travel SA.

AQUALIZED TRAVEL ADVENTURES

Regal Travel Management Company
